

# Infection Prevention and Control Precautions

November 9, 2022 / 12-1 p.m. CST

## Webinar presented by the Iowa Department of Health and Human Services and ECRI

Isolation precautions create barriers between people and germs and help prevent the spread of illness in healthcare settings. All healthcare workers should be familiar with standard and transmission-based precautions. Standard precautions include wearing personal protective equipment (PPE) when close to patients and exposed to blood, body fluids, mucous membranes, or areas of open skin. Transmission-based precautions are extra steps to follow for illnesses caused by certain germs and provide an added level of protection over standard precautions.

This webinar, presented by the Iowa Department of Health and Human Services and ECRI, is designed for Iowa's frontline healthcare workers with a focus on those who interact in any capacity with persons seeking healthcare, including environmental services personnel, emergency medical services personnel, pharmacists, home health service providers, therapists, dietitians, and non-clinical staff.

### Register in advance for this **FREE** webinar:

[https://ecri.zoom.us/meeting/register/tJAqdeqsrz0iH9MajcK05Wv-uqsu0\\_01W2aG](https://ecri.zoom.us/meeting/register/tJAqdeqsrz0iH9MajcK05Wv-uqsu0_01W2aG)

## Learning Objectives

- Understand the key elements of standard and transmission-based precautions
- Describe the distinct types of transmission-based precautions
- Describe the proper donning and doffing sequence of personal protective equipment (PPE)
- Explain how to overcome barriers related to isolation precautions compliance

## Speakers

- **Presenter: Susan Singh**, MPH, CIC, ECRI Infection Preventionist
- **Co-presenter: Margaret Miller**, BS, MT(ASCP)M, CIC, FAPIC, ECRI Infection Preventionist

## Continuing Education Credit and Eligibility Requirements

- ECRI is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education, as well as nursing credit through our California nursing provider. Credit will only be issued to individuals who complete a post-webinar survey and who are individually registered and attend the entire program. For those with professional licenses, please check with your board on reciprocity with these credits.

Questions about registration or continuing education credits? Contact [IowaIPCHelp@ecri.org](mailto:IowaIPCHelp@ecri.org).
